

Table of Contents

| | |
|---|-------------|
| Preface | xv |
| Editor | xvii |
| 1. Why Patient Blood Management? | 1 |
| <i>Jonathan H. Waters, MD</i> | |
| History | 1 |
| Risks of Allogeneic Transfusion | 2 |
| Patient Blood Management Strategies | 6 |
| The Medical Patient | 9 |
| Summary | 10 |
| References | 10 |
| 2. Development of a Patient Blood Management Program | 13 |
| <i>Steven M. Frank, MD; Daniel J. Johnson, BS; and Linda M.S. Resar, MD</i> | |
| Getting Started | 14 |
| Patient Blood Management Standards | 14 |
| Key Aspects of a Patient Blood Management Program | 16 |
| Data Collection | 25 |
| Data Variables — Analysis and Presentation | 26 |
| Computerized Provider Order Entry with Clinician Decision Support | 32 |
| Transfusion Verification | 33 |
| Extreme Transfusion Circumstances | 33 |
| Conclusion | 35 |
| References | 35 |
| 3. Economics of Patient Blood Management | 39 |
| <i>Janet F. R. Waters, MD, MBA</i> | |
| Medical Economic Analysis | 39 |
| Modalities of Patient Blood Management | 41 |
| Conclusion | 45 |
| References | 46 |

4. Transfusion Thresholds: Platelet Transfusion 49*Minh-Ha Tran, DO, FASCP*

| | |
|--|----|
| Thrombocytopenia, Bleeding Risk, and Thresholds for Prophylactic Transfusion | 50 |
| Prophylactic Platelet Transfusions Before Central Venous Catheter Placement | 52 |
| Platelet Dysfunction in the Setting of Antiplatelet Therapy | 53 |
| Platelet-Type Bleeding in von Willebrand Disease | 59 |
| Platelet Transfusion in the Bleeding Patient | 60 |
| Special Scenarios | 61 |
| Assessment of Response to Platelet Transfusion | 68 |
| Conclusion | 71 |
| References | 72 |

5. Patient Blood Management Strategies to Treat Anemia and Thrombocytopenia in the Cancer Patient 77*Patricia A. Ford, MD; Matthew Ford, BEd; and Shakira Grant, MBBS, MD*

| | |
|-------------------------------------|----|
| Treatment of Anemia | 78 |
| Treatment of Thrombocytopenia | 83 |
| Conclusion | 86 |
| References | 87 |

6. Evidence-Based Plasma Therapy 89*Mark H. Yazer, MD, FRCPC*

| | |
|---|----|
| Common Plasma Products | 89 |
| Administration of Plasma | 90 |
| Use of Plasma | 93 |
| Minimal Effect of Plasma Transfusion on Mildly Elevated INRs in Hospitalized Patients | 95 |
| Minimal Effect of Plasma Transfusion on Mildly Elevated INRs in Healthy Volunteers | 96 |
| Effect of Plasma Depends on Pretransfusion INR | 97 |
| Recommendations for the Use of Plasma | 98 |
| References | 99 |

7. Pretransfusion Testing 103*Sarah K. Harm, MD, MSc; Louis H. Alarcon, MD, FACS, FCCM; AND Mark H. Yazer, MD*

| | |
|---|-----|
| Patient Identification and Sample Collection | 104 |
| Type and Screen | 106 |
| Crossmatch | 110 |
| Blood Administration | 110 |
| Uncrossmatched RBCs and Emergency Issue Platelets and Plasma | 113 |
| Pretransfusion Testing and Same-Day Surgery | 115 |
| Point-of-Care Testing of Coagulation Function in Massive Transfusion | 116 |
| Compatibility Requirements for Plasma, Platelets, and Cryoprecipitate | 118 |

Table of Contents

| | |
|---|------------|
| Conclusion | 120 |
| References | 120 |
| 8. Preoperative Optimization of Hemoglobin Levels | 125 |
| <i>Moises Auron, MD, FAAP, FACP, SFHM</i> | |
| General Implications of Preoperative Anemia | 125 |
| Preoperative Pharmacologic Optimization of Hemoglobin | 128 |
| References | 135 |
| 9. Preoperative Optimization of Coagulation Function | 141 |
| <i>Moises Auron, MD, FAAP, FACP, SFHM</i> | |
| Avoidance of Anticoagulants | 141 |
| Genetic Abnormalities in Coagulation | 148 |
| Conclusion | 155 |
| References | 156 |
| 10. Perioperative Blood Sequestration | 161 |
| <i>Jonathan H. Waters, MD</i> | |
| Physiology of Compensatory Changes | 162 |
| Acute Normovolemic Hemodilution | 164 |
| Component Sequestration | 166 |
| Conclusion | 168 |
| References | 168 |
| 11. Intraoperative Blood Recovery and Reinfusion | 171 |
| <i>Jonathan H. Waters, MD</i> | |
| Collection System | 171 |
| Processing System | 174 |
| Processing Control | 177 |
| Efficiency of Blood Recovery | 179 |
| Indications for Use of Blood Recovery | 181 |
| Contraindications | 182 |
| Complications of Blood Recovery | 187 |
| References | 188 |
| 12. Quality Systems in the Perioperative Setting | 193 |
| <i>Eduardo Nunes, MPP, CAE</i> | |
| Quality Management Systems and Management Theory: A Historical Perspective .. | 193 |
| Quality Management Systems in Clinical Settings | 194 |
| QSEs in Detail | 195 |
| Conclusion | 202 |
| References | 203 |

| | |
|--|------------|
| 13. Topical Hemostatics and Fibrin Sealants | 205 |
| <i>Leela Mundra, MA; Antonio Pepe, MD; Felicia Ivascu, MD; Timothy J. Hannon, MD; and Carl I. Schulman, MD, MSPH, PhD</i> | |
| Basic Coagulation and Hemostasis | 206 |
| First-Generation Topical Hemostatics | 206 |
| Second-Generation Topical Hemostatics | 209 |
| Fibrin Sealants | 211 |
| Novel Hemostatics | 214 |
| Summary and Conclusions | 215 |
| References | 216 |
| 14. Point-of-Care Testing | 219 |
| <i>Kenichi Tanaka, MD, and Daniel Bolliger, MD</i> | |
| Preanalytical Issues | 220 |
| Hemoglobin and Hematocrit | 221 |
| Hemostasis | 222 |
| Platelet Function Testing | 223 |
| Conclusion | 228 |
| References | 228 |
| 15. Postoperative Blood Management Strategies | 233 |
| <i>Manuel Muñoz, MD, PhD; Aryeh Shander, MD, FCCM, FCCP; Tanuja Rijhwani, MBBS, MPH; Robert Dyga, RN, CCP; and Jonathan H. Waters, MD</i> | |
| Minimization of Blood Loss | 233 |
| Stimulation of Erythropoiesis | 244 |
| Restrictive Transfusion Thresholds | 247 |
| References | 251 |
| 16. ECMO: Complications and Blood Transfusion | 259 |
| <i>Stephen A. Esper, MD, MBA; Kathirvel Subramaniam, MD; J. Awori Hayanga, MD, MPH; Jerrold H. Levy, MD, FAHA, FCCM; Darrell Triulzi, MD; Jonathan H. Waters, MD; and Ian Welsby, MD</i> | |
| Types of ECMO Circuits | 260 |
| Indications and Epidemiology for ECMO | 262 |
| Complications of ECMO Use | 262 |
| Further Coagulation and Anticoagulation Considerations | 269 |
| Bleeding and Transfusion | 272 |
| References | 273 |
| 17. Surgical and Anesthetic Management for Liver Surgery | 279 |
| <i>Marie Csete, MD, PhD, and Andrei Stieber, MD, FACS</i> | |
| Preoperative Evaluation for Liver Resection | 280 |
| Anesthesia for Liver Resection | 280 |
| Surgical Techniques for Liver Resection | 281 |

Table of Contents

| | |
|--|------------|
| Topical Agents | 287 |
| Liver Transplantation | 287 |
| Summary | 290 |
| References | 291 |
| 18. Special Perioperative Management: Liver Surgery | 295 |
| <i>Aparna Dalal, MD; Martin I. Montenovo, MD; and Brian M. Parker, MD</i> | |
| Physiology and Pharmacologic Considerations | 295 |
| Preoperative Evaluation | 297 |
| Blood Product Use for Liver Surgery | 297 |
| Coagulation Monitoring | 299 |
| Intraoperative Considerations | 300 |
| Postoperative Considerations | 301 |
| Conclusion | 302 |
| References | 303 |
| 19. Special Perioperative Management: Obstetrics | 305 |
| <i>Jonathan H. Waters, MD</i> | |
| Physiologic Changes of Pregnancy | 305 |
| Morbidity of Postpartum Hemorrhage | 306 |
| Definition of Hemorrhage | 306 |
| Blood Conservation Strategies | 307 |
| Erythropoietin and Iron Supplementation | 309 |
| Pharmacologic Treatment of Hemorrhage | 310 |
| Interventional Radiology | 312 |
| Surgical Techniques | 313 |
| Allogeneic Transfusion Management | 313 |
| References | 314 |
| 20. Special Perioperative Management: Pediatric and Neonatal Patients | 319 |
| <i>Nabil Hassan, MD, FAAP, and Surender Rajasekaran, MD</i> | |
| Prevalence of Anemia and Frequency of Transfusions in Pediatrics | 320 |
| Ethical Considerations | 320 |
| General Patient Blood Management Strategies | 321 |
| PBM Considerations in Neonatal Patients | 324 |
| PBM Considerations in Older Pediatric Patients | 326 |
| References | 336 |
| 21. Special Perioperative Management: Cardiac Surgery | 345 |
| <i>Victor A. Ferraris, MD, PhD; Sibu P. Saha, MD, MBA; Krishna S. Vyas, MD, MHS; and Todd K. Rosengart, MD</i> | |
| The Spectrum of Blood Transfusion in Cardiac Surgeries | 345 |
| Preoperative Interventions Aimed at Modifiable Risk Factors | 347 |

| | |
|---|------------|
| Patient Blood Management During Cardiac Procedures | 351 |
| Practice Guidelines and Performance Measures for Patient Blood | |
| Management in Cardiac Surgery | 357 |
| References | 360 |
| 22. Special Perioperative Management: Orthopedic Surgery | 371 |
| <i>Antonia F. Chen, MD, MBA, and Brian A. Klatt, MD</i> | |
| Preoperative Medical Optimization | 372 |
| Minimizing Preoperative Autologous Blood Donation (PABD) | 376 |
| Intraoperative Management | 376 |
| Conclusion | 381 |
| References | 381 |
| Index..... | 385 |
