

Table of Contents

| | |
|--|-------------|
| Preface | xv |
| About the Authors | xvii |
| Section 1: ABO: The Birth of Blood Groups | |
| 1. Blood Groups—From Then 'Til Now | 1 |
| Discovery | 1 |
| Response and Reconsideration | 2 |
| Beyond ABO | 4 |
| M, N, and P | 5 |
| Rh | 6 |
| The Antiglobulin Test | 7 |
| The Plot Thickens | 7 |
| References | 8 |
| 2. Karl Landsteiner, Father of Blood Groups | 9 |
| Beginnings | 9 |
| Medical School | 11 |
| The Young Researcher | 13 |
| Priority Issues | 16 |
| Decastello and Sturli: Another Blood Group | 18 |
| Other Directions | 19 |
| Life in Vienna | 21 |
| References | 23 |
| 3. ABO Grows Up | 27 |
| Transfusion History, 1600 to 1920 | 27 |
| The Blood Groups Gain Attention | 29 |
| Transfusion in World War I | 37 |
| Advances in ABO Blood Group Serology | 39 |
| References | 47 |
| 4. Genetics, Eugenics, and Blood Groups | 51 |
| Heredity, 1900 | 52 |
| The Rise of Genetics | 52 |
| Genes and Blood Groups | 53 |

| | |
|--|------------|
| Genes and Populations | 59 |
| References | 62 |
| 5. Karl Landsteiner in New York | 65 |
| At “The Rockefeller” | 65 |
| Landsteiner Returns to the Blood Groups | 68 |
| The Nobel Prize | 71 |
| The Laureate at Work | 73 |
| References | 74 |
| 6. <i>Out, Damned Spot!</i> Early Forensic Applications of ABO | 77 |
| What Blood Can Tell | 78 |
| Is It Blood? | 78 |
| Is It Human Blood? | 79 |
| Whose Blood Is It? | 81 |
| References | 85 |
| 7. <i>Who’s Your Daddy?</i> ABO and Paternity Testing | 87 |
| Establishing Paternity | 87 |
| Paternity Testing and the Courts: Europe | 89 |
| Paternity Testing and the Courts: Britain | 91 |
| Paternity Testing and the Courts: United States | 92 |
| Lights! Camera! Action! | 96 |
| References | 98 |
| 8. Blood and Race: Seroanthropology in the First Half of the 20th Century | 101 |
| The Hirszfelds and the Beginnings of Seroanthropology | 101 |
| Seroanthropology in Continental Europe | 106 |
| Seroanthropology in North and South America | 116 |
| Seroanthropology in Britain and Her Empire | 122 |
| Seroanthropology in Asia | 128 |
| References | 130 |
| 9. Sugars and Splice: The Biochemistry and Immunochemistry of ABO | 137 |
| Early Attempts: 1920s and 1930s | 137 |
| 1940s: Morgan, Watkins, and Kabat | 139 |
| The Three “L’s”: Lewis, Lutheran, and Lectins | 143 |
| Cracking the Specificity | 150 |
| Bombay—the ABH Null Phenotype | 155 |
| Epilogue: Morgan, Watkins, and Kabat | 157 |
| References | 159 |

Section 2: Rh and Hemolytic Disease of the Newborn

| | |
|--|------------|
| 10. Monkey Business: The Discovery of Rh | 165 |
| Landsteiner, Wiener, and the Rhesus Monkey | 165 |
| The Rhesus Connection | 168 |
| Levine and Erythroblastosis Fetalis | 170 |
| Priority | 173 |
| LW: A Sticky Wicket in the Discovery of Rh | 175 |
| Rh Goes Public | 177 |
| End of the Landsteiner Era | 178 |
| References | 179 |
| 11. Hemolytic Disease of the Newborn: Cause and Treatment | 183 |
| Erythroblastosis Fetalis—Historical Aspects | 183 |
| Treatment | 189 |
| Conclusion | 197 |
| References | 197 |
| 12. Britain, Blood, and Bombs (1930-1945) | 201 |
| Britain and the Blood Groups | 201 |
| World War II and Blood Transfusion | 204 |
| Wartime Blood Grouping | 212 |
| References | 219 |
| 13. A <i>Rh</i>-ose by Any Other Name: Rh Specificity and Terminology | 221 |
| Not Just Rh+ and Rh- | 221 |
| Rh in America, 1940-1943 | 221 |
| Rh in England, 1940-1943 | 224 |
| For and Against: Anti-e and Anti-d | 228 |
| The International Rh Conference | 230 |
| Wiener's Campaign | 232 |
| References | 236 |
| 14. Detecting Rh...and Beyond | 239 |
| Early Detection Methods | 239 |
| Blocking vs Incomplete Antibodies | 240 |
| Advanced Detection: Capillary Tubes, Slides, and Albumin | 242 |
| The Antiglobulin Test | 243 |
| References | 250 |
| 15. There <i>A-Rh-ose</i> Such a Clatter: More Rh Antigens! | 253 |
| D ^u | 253 |
| Subdivisions of D | 254 |
| Compound Antigens and More | 255 |

| | |
|--|------------|
| G | 256 |
| Deletions and Nulls | 258 |
| Rosenfield's Numerical Notations | 259 |
| References | 262 |
| 16. Preventing HDN: RhIG | 265 |
| Theories and Early Treatment | 265 |
| Development of Rh Immune Globulin | 268 |
| The US Trials | 274 |
| Encore: Rh Immune Globulin before Delivery | 277 |
| Rh Immune Globulin and the Blood Bank | 277 |
| References | 279 |
| Section 3: Blood Groupers | |
| 17. Blood Bank Organizations | 281 |
| International Activity | 281 |
| Activity in the United States | 287 |
| References | 298 |
| 18. Medical Technologists to the Fore | 301 |
| Training in the United States—The Early Years | 301 |
| US Laboratory Workers and the ASCP | 302 |
| Local, State, and Regional Educational Efforts | 311 |
| Blood Bank Reagent Companies and Education | 314 |
| Training for the Military Blood Bank | 321 |
| Workers in Great Britain | 322 |
| References | 324 |
| 19. AABB Scientific Programs | 327 |
| The AABB Annual Meeting | 327 |
| The AABB Awards | 333 |
| AABB Standards and Accreditation | 337 |
| AABB Publications | 337 |
| References | 340 |
| 20. Rare Donor Programs and Immunohematology Reference Laboratories | 343 |
| Rare Blood Donors | 343 |
| Immunohematology Reference Laboratories to the Rescue | 344 |
| Immunohematology Reference Laboratory Standards | 352 |
| Reference Laboratories and Rare Donor Programs Outside the United States | 352 |
| Learning and Sharing: ICII and SCARF | 360 |
| References | 375 |

| | |
|--|------------|
| 21. In a Fine and Nobel Tradition: Blood Groupers on Parade | 379 |
| Blood Groupers in Britain | 380 |
| The British Mafia and Other Ex-Patriots | 393 |
| Blood Groupers in the United States | 409 |
| References | 418 |
| Section 4: Blood Grouping | |
| 22. Slide, Tile, and Tube: Test Systems, 1950-2000 | 423 |
| Slides and Tiles | 423 |
| Test Tubes | 427 |
| Pipets | 430 |
| Racks and Tube Holders | 431 |
| Centrifuges | 432 |
| Cell Washers | 435 |
| Grading Reactivity | 436 |
| References | 438 |
| 23. Clump Together Now: Improving Antibody Detection | 439 |
| Enhancing Agglutination | 439 |
| The Antiglobulin Test | 440 |
| Elution | 445 |
| Polybrene, LISS, LIP, and PEG | 447 |
| Red Cell Modification | 449 |
| Serological Approaches to AIHA | 450 |
| References | 455 |
| 24. Beyond the Tube | 459 |
| Capillary Tubes | 459 |
| Eldon Cards | 460 |
| Microplates | 461 |
| Automation | 463 |
| Solid Phase | 467 |
| Column Agglutination | 470 |
| References | 475 |
| 25. Applications of Serological Tests | 479 |
| The Crossmatch and the Antibody Screen | 479 |
| Antibody Identification | 483 |
| Reagent Antisera | 488 |
| Monoclonal Reagents | 491 |
| References | 494 |

26. Beyond ABO—Medicolegal and Anthropological Applications of Other Blood Groups 497

| | |
|---|-----|
| Forensic Serology | 497 |
| Parentage Testing | 502 |
| Non-Red-Cell Markers | 505 |
| The Advent of DNA Testing | 509 |
| Anthropology beyond ABO | 511 |
| Blood Group Population Studies in the Second Half of the 20th Century | 513 |
| References | 519 |

Section 5: The Blood Groups

27. Some Historical Highlights of the Blood Group Systems 523

| | |
|--|-----|
| Organization and Terminology of the Blood Groups | 523 |
| ABO, H, Lewis, P1PK, Globoside, FORS, and I Systems | 525 |
| MNS System [MNS] | 532 |
| Rh, LW, and RHAG Systems [RH, LW, RHAG] | 546 |
| Lutheran System [LU] | 552 |
| Kell and Kx Systems [KEL, XK] | 557 |
| Duffy System [FY] | 562 |
| Kidd System [JK] | 569 |
| Diego System [DI] | 572 |
| Yt System [YT] | 575 |
| Xg System [XG] | 576 |
| Scianna System [SC] | 577 |
| Dombrock System [DO] | 579 |
| Colton and Gill Systems [CO, GIL] | 581 |
| Gerbich System [GE] | 582 |
| Chido/Rodgers, Knops, Cromer, and JMH Systems; Cost Collection; and Sd ^a | 584 |
| Indian System [IN] | 590 |
| Ok System [OK] | 590 |
| Raph System [RAPH] | 591 |
| Lan and Jr Systems [LAN, JR] | 591 |
| Vel System [VEL] | 592 |
| CD59 System [CD59] | 594 |
| AUG System [AUG] | 594 |
| Unaffiliated Antigens | 594 |
| References | 598 |
| ABO, H, Lewis P1PK, Globoside, FORS, and I Systems [ABO, H, LE, P1PK, GLOB, FORS, I] | 598 |
| MNS System [MNS] | 599 |
| Rh, LW, and RHAG Systems [RH, LW, RHAG] | 600 |
| Lutheran System [LU] | 601 |
| Kell and Kx Systems [KEL, XK] | 601 |
| Duffy System [FY] | 602 |
| Kidd System [JK] | 604 |
| Diego System [DI] | 605 |
| Yt System [YT] | 605 |
| Xg System [XG] | 605 |
| Scianna System [SC] | 606 |
| Dombrock System [DO] | 606 |

| | |
|---|-------------|
| Colton and Gill Systems [CO, GIL] | .606 |
| Gerbich System [GE] | .607 |
| Chido/Rodgers, Knops, Cromer, and JMH Systems; Cost Collection; and Sd ^a Antigen | .607 |
| Indian System [IN] | .608 |
| Ok System [OK] | .609 |
| Raph System [RAPH] | .609 |
| Lan and Jr Systems [LAN, JR] | .609 |
| Vel System [VEL] | .609 |
| CD59 System [CD59] | .609 |
| AUG System [AUG] | .609 |
| Unaffiliated Antigens | .609 |
| 28. Final Notes | .611 |
| Index | .613 |
