
Table of Contents

Preface	ix
About the Authors.	xi
Chapter 1. An Overview of Process Improvement	1
A Quality Improvement Program	1
Sources of Quality Improvement	2
Process Improvement in Action	5
References	8
Appendix 1-1. Process Improvement Plan Form—Chemistry QC	10
Appendix 1-2. Process Improvement Plan Form—Missing Competency Assessments	13
Chapter 2. Error Management Essentials	17
What Is Laboratory Error?	17
What Is Error Management?	18
Why Is Error Management Important?	19
Laboratory Testing Process	20
Sources of Laboratory Error	21
Analytical Interference	21
Categories of Errors	23
Factors Contributing to Error Occurrence	25
References	30
Chapter 3. Best Practices in Error Management	33
Implementation of an Effective Error Management Protocol	33
Step 1: Error Detection	33
Step 2: Error Reporting	34
Step 3: Initial Determination and Evaluation	35
Step 4: Remedial (Immediate) Action	35
Step 5: Investigation and Root-Cause Analysis	35
A “5 Whys” Template	38
Step 6: Notification, Recall, and Reporting to External Agencies, if Required	42

Step 7: Selection and Implementation of Appropriate Corrective Action . . . 42

Step 8: Selection and Implementation of Appropriate Preventive Action . . . 42

Step 9: Evaluation of the Implemented Corrective and Preventive Action . . . 42

Conclusion 43

References 43

Appendix 3-1. Example of a Completed Error Reporting Form for
Delayed Reporting of Results. 44

Appendix 3-2. Example of a Completed “5 Whys” Form for Root-Cause
Analysis 47

Appendix 3-3. Example of a Completed Fishbone Diagram to Investigate
Unacceptable Levels of Mislabeled Specimens 48

Appendix 3-4. A Pareto Chart Completed to Illustrate Sources of Rejected
Lab Specimens 49

Chapter 4. Self-Assessment. 51

Important Questions Related to Clinical Laboratories 51

Important Questions Related to Point-of-Care Testing 52

Important Questions Related to Blood Collection and Transfusion 53

Conclusion 53

Suggested Reading 54

Appendix 4-1. Self-Assessment Template for Clinical Laboratories 55

Appendix 4-2. Self-Assessment Template for Point-of-Care Testing 57

Appendix 4-3. Self-Assessment Template for Blood Collection and
Transfusion 58

**Chapter 5. Management Approaches and Strategies to
Minimize/Eliminate Errors 61**

Implementation of an Effective Quality Management System 61

Evaluation of Quality Management System 64

Using State-of-the-Art Technology 64

Implementation of a “Just Culture” Approach 68

Implementation of an “Excellent Catch” Program 69

Implementation of a Risk-Based Process Validation Approach 70

Implementation of Effective Training Programs (Training, Training, and
Extra Training) 74

Implementation of an Effective Competency Program 75

References 75

ERROR MANAGEMENT TEMPLATES. 79
