

# Table of Contents

<b>Preface</b> . . . . .	<b>xvii</b>
<b>Introduction</b> . . . . .	<b>xix</b>
<b>About the Editor-in-Chief</b> . . . . .	<b>xxiii</b>

## **Section 1: History, Resolutions, Frameworks**

*Section Editors: Cees Th. Smit Sibinga, MD, PhD, FRCP Edin,  
FRCPATH, Yetmgeta E. Abdella, MD, MPH*

### **1. Historical Background and Current Global Efforts . . . . 1**

*Yetmgeta E. Abdella, MD, MPH; Yuyun S. Maryuningsih  
Soedarmono, PhD, MD; and Cees Th. Smit Sibinga, MD,  
PhD, FRCP Edin, FRCPATH*

Learning Objectives . . . . .	1
Introduction. . . . .	2
Historical Perspective . . . . .	2
World Health Assembly and Regional Committee Resolutions on Access to Safe Blood and Blood Products. . . . .	8
Report by the Secretariat: Principles on the Donation and Management of Blood, Blood Components, and Other Medical Products of Human Origin. . . . .	12
Blood and Blood Products as Essential Medicines . . . . .	12
The WHO Action Framework to Advance Universal Access to Safe, Effective, and Quality-Assured Blood Products 2020-2023 . . . . .	13
Summary . . . . .	19
References . . . . .	21

**2. Three Pillars of a Sustainable Blood System . . . . . 27**

*Cees Th. Smit Sibinga, MD, PhD, FRCP Edin, FRCPath;  
Soraya Amar El-Dusouqui, MD, MBO; and Farrukh Hassan,  
MD, MBA*

Learning Objectives . . . . . 27  
Introduction . . . . . 28  
Legislative and Regulatory Framework . . . . . 28  
Blood Policy and Its Ethical Principles . . . . . 29  
Legislative Framework for Collection and Use of Blood, Blood  
Components, and Plasma-Derived Medicinal Products . . . . . 32  
Regulatory Framework for Blood, Blood Components,  
and Plasma-Derived Medicinal Product Activities . . . . . 34  
Governance, Leadership, and Stewardship. . . . . 39  
How Does This Translate to a Blood System? . . . . . 45  
Quality Culture. . . . . 47  
The Impact of the Three Pillars on Sustainability of the  
Blood System . . . . . 52  
Global Comparison . . . . . 53  
Conclusions . . . . . 53  
Considerations for Practice . . . . . 54  
References . . . . . 55

**3. Developing and Implementing Standards and  
Accreditation . . . . . 61**

*Mohammed Farouk, MD, MBA; Cheuk-Kwong Lee, MD;  
Nabajyoti Choudhury, MBBS, PhD, MBA; and  
Nidhi M. Bhatnagar, MD*

Learning Objectives . . . . . 61  
Introduction . . . . . 62  
Positioning of Standards in Blood Safety and Quality  
Management . . . . . 63  
Historical Background on Standards Development in Blood  
Transfusion . . . . . 67  
Challenges to Implementing Standards in LMICs. . . . . 68  
Approaches to Develop Standards and Accreditation  
Programs Tailored to LIMCs . . . . . 72  
Examples of Uptake and Implementation of Some Regional  
and National Standards in LIMCs . . . . . 78  
Global Comparison . . . . . 81

Table of Contents

Conclusions . . . . . 82  
Considerations for Practice . . . . . 82  
References . . . . . 83

**Section 2: Developing Blood Systems**

*Section Editors: Linda S. Barnes, DrPH, MHA,  
Peter J.K. Zacharias, DSc*

**4. The Blood Safety Value Chain . . . . . 87**

*Peter J.K. Zacharias, DSc*

Learning Objectives . . . . . 87  
Introduction . . . . . 87  
What Is a Value Chain? . . . . . 88  
Using Value Chains as a Framework for Organization . . . . . 91  
The Blood Safety Value Chain . . . . . 93  
Conclusions . . . . . 98  
Considerations for Practice . . . . . 99  
References . . . . . 100

**5. Stewardship Processes to Achieve Voluntary  
Community Blood Donation . . . . . 103**

*Linda S. Barnes, DrPH, MHA; Pedro Lewis, MD, MT;  
and Melina De Four, MD*

Learning Objectives . . . . . 103  
Introduction . . . . . 104  
Stewardship Processes . . . . . 105  
Transformational Shifts . . . . . 108  
Comparative Case Studies . . . . . 112  
Global Comparisons . . . . . 119  
Conclusions . . . . . 119  
Considerations for Practice . . . . . 119  
References . . . . . 120

**6. Anticipating and Satisfying the Demand for Blood  
Transfusion . . . . . 123**

*Mauricio Beltràn, MPH; Ashley Duits, PhD; and Linda S.  
Barnes, DrPH, MHA*

Learning Objectives . . . . .	123
Introduction . . . . .	124
Access to Blood and Blood Components . . . . .	124
Quality and Safety. . . . .	128
Public Health Aspects of Blood Transfusion Services . . . . .	134
Governance . . . . .	135
Global Comparisons . . . . .	135
Considerations for Practice . . . . .	136
References . . . . .	136

**7. Customized Strategies to Improve Blood Safety  
and Availability in Sub-Saharan Africa . . . . . 141**

*Claude Tayou Tagny, MD, MS, MSC; Syria Laperche, MD,  
PhD; Dora Mbanya, MD, PhD, FRCPath; and Edward L.  
Murphy, MD, MPH*

Learning Objectives . . . . .	141
Introduction . . . . .	142
Mandatory and Critical Conditions for an Efficient Blood Safety Program in Resource-Limited Areas . . . . .	143
An Adapted Organizational Model . . . . .	143
A Sustainable Financial Model. . . . .	145
Reducing the Cost of a Pint of Blood . . . . .	146
Customized Strategies to Increase Availability of Blood and Blood Components. . . . .	147
Improvement of Blood Safety Using Locally Accessible Approaches . . . . .	149
Global Comparisons . . . . .	153
Conclusions . . . . .	153
Considerations for Practice . . . . .	153
References . . . . .	154

### Section 3: Transfusion Practices

*Section Editors: Meghan Delaney, DO, MPH, Evan M. Bloch, MBChB, MS, Quentin G. Eichbaum, MD, PhD, MPH, MFA, MMHC, MA, MSc, MMed, FCAP, FASCP*

#### 8. Patient Blood Management: Evidence-Based Decision-Making and Blood Management . . . . . 163

*Robert Wise, MBChB, Dip Obst, Dip PEC, FCA, Cert Crit Care, MMed; David Bishop, MBChB, DA, FCA, PhD; and Matthew Gibbs, MBChB, DA, FCA, MMed*

Learning Objectives . . . . .	163
Introduction . . . . .	164
Historical Background . . . . .	165
Patient Blood Management: Underlying Principles and Evidence . . . . .	166
Rational Blood Usage vs PBM . . . . .	168
PBM Applied to Specific Populations . . . . .	169
Anemia in LMICs and the Need for PBM . . . . .	177
Challenges and Approaches in LMICs . . . . .	181
Future Considerations and Research . . . . .	183
Global Comparisons . . . . .	184
Conclusions . . . . .	185
Considerations for Practice . . . . .	186
References . . . . .	186

#### 9. Compatibility and Pretransfusion Practice: A Spectrum . . . . . 193

*Susan T. Johnson, MSTM, MLS(ASCP)SBB<sup>CM</sup>; Bernard Natukunda, MBChB, MSc, PhD; and Poonam Shrivastava, MBBS, DCP, PGDHHM*

Learning Objectives . . . . .	193
Introduction . . . . .	194
Preanalytical Phase . . . . .	194
Analytical Phase . . . . .	203
Postanalytical Phase . . . . .	234
Low-Resource Settings . . . . .	242
Global Comparisons . . . . .	245

Conclusions . . . . .	245
Considerations for Practice . . . . .	246
References . . . . .	246

**10. Diagnosing, Managing, and Preventing  
Transfusion Reactions . . . . .251**

*Heather A. Hume, MD, FRCPC; Aggrey Dhabangi, MBChB,  
M.Med, PhD; and Claude Tayou Tagny, MD, MS, MSc*

Learning Objectives . . . . .	251
Introduction . . . . .	252
Transfusion Reactions: Diagnosis and Pathophysiology . . . . .	252
Transfusion Reaction Rates . . . . .	261
Management of ATRs . . . . .	267
Prevention of Transfusion Reactions . . . . .	271
Global Comparisons . . . . .	281
Conclusions . . . . .	284
Considerations for Practice . . . . .	284
References . . . . .	285

**11. Challenges and Opportunities in Transfusion  
Practices for the Global Surgeon . . . . .289**

*Nakul P. Raykar, MD, MPH; Juan-Carlos Salamea, MD; and  
Juan Carlos Puyana, MD*

Learning Objectives . . . . .	289
Introduction . . . . .	290
Access to Surgical Care . . . . .	291
Challenges of Surgical Care Provision without Blood . . . . .	291
The Need for Blood in Managing Surgical Conditions, Urgencies, and Emergencies . . . . .	293
Resuscitation Strategies for Severe Hemorrhage . . . . .	296
Innovations in Blood Transfusion Related to Surgery . . . . .	300
Global Comparisons . . . . .	302
Conclusions . . . . .	303
Considerations for Practice . . . . .	303
References . . . . .	304

**12. Transfusion in Humanitarian Emergencies and Disaster Settings . . . . . 309**

*Rita Feghali, MD, MPH; May Raouf, MD; and Nagi Gebril, MD*

Learning Objectives . . . . .	309
Introduction . . . . .	310
Overview of Transfusion during Emergencies and Disasters. . . . .	310
Disaster Planning and Management . . . . .	318
Global Comparisons . . . . .	331
Conclusions . . . . .	334
Considerations for Practice . . . . .	334
References . . . . .	335

**13. Transfusion-Transmitted Infections . . . . . 339**

*Silvano Wendel, MD, PhD; Marion Vermeulen, MTEch; and  
Evan M. Bloch, MBChB, MS*

Learning Objectives . . . . .	339
Introduction . . . . .	340
Preventive Measures . . . . .	340
Overview of Testing . . . . .	341
Specific Screening Tests . . . . .	342
Pathogen Inactivation Methods. . . . .	347
The Major Transfusion-Transmissible Infections . . . . .	348
Transfusion-Transmissible Infections of Lesser Concern. . . . .	363
Prion Diseases . . . . .	370
Pathogens with Indirect Effects on Transfusion . . . . .	372
Global Comparisons . . . . .	376
Conclusions . . . . .	380
Considerations for Practice . . . . .	380
References . . . . .	383

**14. Pediatric and Neonatal Transfusion Medicine . . . . . 397**

*Aggrey Dhabangi, MBChB, MMed, PhD; Gabriela C.  
Marcarian, MD; and Meghan Delaney, DO, MPH*

Learning Objectives . . . . .	397
Introduction . . . . .	398
Current State of Pediatric Transfusion in LMICs . . . . .	399
Blood Products . . . . .	402
Transfusion Practice . . . . .	403

Blood Supply . . . . .	408
Global Comparisons . . . . .	408
Conclusions . . . . .	410
Considerations for Practice . . . . .	410
References . . . . .	411

**15. Transfusion Support in Sickle Cell Disease . . . . .415**

*Najibah A. Galadanci, PhD, MBBS, MPH; Halima Bello-Manga, MBBS, MPH; Carla Luana Dinardo, MD, PhD; and Shannon Kelly, MD*

Learning Objectives . . . . .	415
Introduction . . . . .	416
Methods of Transfusion: Simple vs Exchange Transfusion . . . . .	416
Volume and Other Special Requirements of RBCs Used for Transfusion in SCD. . . . .	418
Indications for RBC Transfusion in SCD . . . . .	421
Balancing the Indications with Blood Availability in LMICs . . . . .	424
Complications of Transfusion Therapy in SCD . . . . .	427
Therapies with Potential to Decrease/Modulate RBC Usage in SCD . . . . .	434
Access to Disease-Modifying Medications and Curative Therapies for Patients with SCD in LMICs . . . . .	436
Global Comparisons . . . . .	436
Conclusions . . . . .	437
Considerations for Practice . . . . .	438
References . . . . .	439

**16. Blood Transfusion and Complications of Pregnancy and Childbirth . . . . .447**

*Susan Fawcus, MA (Oxon), MB BCh, FRCOG; Jackie Thomson, MBChB Stell, MMed (Int Med) Stell, Cert Clinical Haematology; and Petro-Lize Wessels, MBChB, Postgraduate Diploma Transfusion Medicine*

Learning Objectives . . . . .	447
Introduction . . . . .	448
The Context of Maternity Care in LMICs . . . . .	449
Pregnancy and Childbirth Conditions That May Require Blood Transfusion, with an Overview of Their Prevention and Management . . . . .	450

Table of Contents

Anemia and Blood Transfusion . . . . .	455
Emergency and Massive Blood Transfusion . . . . .	460
Global Comparisons . . . . .	471
Conclusions . . . . .	474
Considerations for Practice . . . . .	475
References . . . . .	475

**17. Apheresis: Challenges and Opportunities . . . . . 481**

*Antonina Babynets, MD; Teguh Triyono, MD, PhD; and  
Hans Vrieling, MD, PhD*

Learning Objectives . . . . .	481
Introduction . . . . .	482
Elements of a Safe and Sustainable Donor Apheresis Program . . . . .	483
Component Collections in Donor Apheresis Programs . . . . .	491
Therapeutic Apheresis Programs . . . . .	495
Apheresis Safety and Quality Considerations . . . . .	499
Global Comparisons . . . . .	499
Conclusions . . . . .	500
Considerations for Practice . . . . .	501
References . . . . .	501

**Section 4: Global Transfusion Education**

*Section Editors: Cees Th. Smit Sibinga, MD, PhD, FRCP Edin,  
Soraya Amar El-Dusouqui, MD, MBO*

**18. Transfusion Medicine Education: A Global Model  
Focused on Professionalism . . . . . 505**

*Cees Th. Smit Sibinga, MD, PhD, FRCP Edin, FRCPath;  
Vanitha Rambiritch, BTech Biomed, MPhil HPE; and  
Vernon J. Louw, MBChB, MMed, PhD*

Learning Objectives . . . . .	505
Introduction . . . . .	506
Three Education Pillars . . . . .	506
A Global Model . . . . .	506
Professionalism: A Keystone Element . . . . .	510
Outcomes of Education . . . . .	515

How to Implement a Training Program . . . . .	521
Global Comparisons . . . . .	523
Conclusions . . . . .	523
Considerations for Practice . . . . .	524
References . . . . .	525

**19. Integrated Approach to Transfusion Education  
for Clinicians, Nurses, and Laboratory  
Professionals . . . . .529**

*Vernon J. Louw, MBChB, MMed, PhD; Arwa Z. Al-Riyami, MD,  
FRCPC; Claire L. Barrett, MBChB, PG Dipl (Transf Med),  
MMed, FCP(SA); and Susan T. Johnson, MSTM,  
MT(ASCP)SBB<sup>CM</sup>*

Learning Objectives . . . . .	529
Introduction . . . . .	530
Current State: Gaps in Integration in Transfusion Practices . . .	531
Challenges in Low- and Middle-Income Developing Countries . . . . .	532
The Integrated Approach in Transfusion Practice . . . . .	534
A Model for Integration of Transfusion Medicine Education . . .	536
The Purpose of Transfusion Education . . . . .	542
Contextualizing Transfusion Education . . . . .	545
Levels of Transfusion Education . . . . .	546
Informal Transfusion Education . . . . .	549
The Integrated Interdisciplinary Team . . . . .	550
Engaging the Learner . . . . .	550
Limitations to Development of Transfusion Education . . . . .	554
Global Comparisons . . . . .	556
Conclusions . . . . .	557
Considerations for Practice . . . . .	557
References . . . . .	558

**Section 5: Research; Ethics and Health Policy;  
Global Comparisons**

*Section Editors: Quentin G. Eichbaum, MD, PhD, MPH, MFA, MMHC, MA, MSc, MMed, FCAP, FASCP, Tina Ipe, MD, MPH*

**20. Conducting Transfusion Research: Challenges and Opportunities . . . . . 563**

*Marion Vermeulen, PhD; Sadhana Mangwana, MD, MBA; and Lilian Castilho, PhD*

Learning Objectives . . . . .	563
Introduction . . . . .	564
Transfusion Services in LMICs . . . . .	565
Barriers to Research in LMICs . . . . .	570
Opportunities for Research in LMICs . . . . .	578
Areas of Needed Research in LMICs . . . . .	582
Practical Tips for LMICs . . . . .	588
Global Comparisons . . . . .	589
Conclusions . . . . .	590
Considerations for Practice . . . . .	590
References . . . . .	591

**21. Ethics and Health Policy Challenges . . . . . 597**

*Edwin Were, MBChB, MMed, MPH; Shivaram Chandrashekar, MBBS, DCP(Path), MHA(Hosp Admin); Kenneth Charles, MBBS, PhD, FRCP, FRCPATH(Haem); and Quentin G. Eichbaum, MD, PhD, MPH, MFA, MMHC, MA, MSc, MMed, FCAP, FASCP*

Learning Objectives . . . . .	597
Introduction . . . . .	598
Principles of Biomedical Ethics . . . . .	598
Historical Perspectives on Transfusion Medicine . . . . .	599
Organizational Structure and Policies of National Blood Transfusion Services . . . . .	602
Elements of a Safe Blood Transfusion Service . . . . .	604
Ethics of Blood Donation . . . . .	605
Recipient-Related Ethical Issues . . . . .	614
Ethical Issues in Research in Transfusion Medicine . . . . .	619

Global Comparisons . . . . .	620
Conclusions . . . . .	621
Considerations for Practice . . . . .	621
References . . . . .	622
<b>22. Reflections on Global Comparisons . . . . .</b>	<b>627</b>
<i>Quentin G. Eichbaum, MD, PhD, MPH, MFA, MMHC, MA, MSc, MMed, FCAP, FASCP</i>	
Introduction . . . . .	627
Common Challenges. . . . .	628
Specific Topics . . . . .	629
Conclusions . . . . .	633
References . . . . .	634
<b>Conclusion . . . . .</b>	<b>635</b>
<b>Index. . . . .</b>	<b>637</b>
