Preface	xi
Overview of Perioperative Blood Management	1
Introduction.	1
Perioperative Blood Management Strategies	10
References.	18
Preoperative Assessment and Management	27
Screening for and Managing Anemia.	28
Bleeding Disorders (Coagulopathy and/or Platelet Dysfunction).	37
References.	53
Intraoperative Blood Management Strategies:	
Acute Normovolemic Hemodilution and Blood Recovery	65
Acute Normovolemic Hemodilution	65
Intraoperative Blood Recovery.	70
References.	89
Adjunctive Pharmacologic Therapies	97
Pharmacologic Support of Hemostasis.	97
Antifibrinolytic Agents.	97
Desmopressin	102
Recombinant Factor VIIa	105
Fibrinogen Concentrate.	108
Prothrombin Complex Concentrate	112
Topical Hemostatic Agents.	116
Autologous Platelet Gel	117
References.	118

Point-of-Care and Near Care Laboratory Testing	129
Factors That Affect Coagulation Testing	129
Regulatory and Accreditation Issues	131
Hemoglobin Testing	132
Hemostasis	133
References	144
Postoperative Blood Management	155
Recovery and Reinfusion of Shed Blood	155
Management of Anemia in the Postoperative Period and Intensive Care Unit	162
Hyperbaric Oxygen Therapy for Treatment of Anemia	168
References	172
Management of Special Patient Populations	181
Liver Surgery	181
Perioperative Blood Management: Cardiac Surgery . . .	192
Major Obstetric Hemorrhage	201
Perioperative Blood Conservation in Pediatrics	217
Patient Blood Management Strategies in Cancer and Chronic Kidney Disease	226
Orthopedic Surgery	248
Care of the Jehovah's Witness Patient	269
References	280
Appendix 1. Organizations Addressing Perioperative Blood Management Issues	317
AABB	317
American Society of Anesthesiologists	319
American Society of ExtraCorporeal Technology	321
Association of periOperative Registered Nurses	322
International Board of Blood Management	323
Jehovah's Witnesses	324
Network for Advancement of Transfusion Alternatives	325

Society for Advancement of Blood Management.	326
References.	327
Appendix 2. Pharmacologic Agents Used to Achieve Hemostasis	329
Index	337
